

## Algoma Headwaters Signature Site

March 12, 2007

Dear Sir / Madame,

The Ontario Ministry of Natural Resources is pleased to release the approved Management Plan for Algoma Headwaters Signature Site. This plan will guide resource stewardship, protection and operations, as well as the management of visitor use and future development of the signature site. This document identifies the management direction for the signature site for the next 20 years, however, it may be reviewed and revised to address changing issues or conditions, as necessary.

I wish to extend a sincere thanks to those who participated in the planning process. All comments received were carefully considered during the preparation of this document, and resulted in some policy revisions from the preliminary strategy stage.

The approved management plan may be viewed on the Ontario Parks' website at: [www.ontarioparks.com/english/algom\\_planning.html](http://www.ontarioparks.com/english/algom_planning.html) Additional copies are available from the contact listed below.

You have a **final opportunity to inspect the approved management plan** for a period of forty-five (45) days. You are encouraged to inspect the document to determine if your concerns have been considered and addressed. Comments will be accepted until April 26, 2007.

Thank you again for your participation.

Yours truly,

Chris Caldwell, Project Manager  
Ontario Parks / Algoma Headwaters Signature Site  
64 Church Street,  
Sault Ste. Marie, Ontario P6A 3H3

Comments and personal information regarding this park management planning process are collected under the authority of the *Provincial Parks Act* (1990) in accordance with the Environmental Bill of Rights and the Environmental Registry. Comments and opinions which do not constitute personal information as defined by the *Freedom of Information and Protection of Privacy Act*, will be shared within the MNR and may be included in documentation that is made available for public review. Personal information will remain confidential, unless prior consent to disclose is obtained. However, this information may be used by the MNR to seek public input on other resource management surveys and projects. For further information regarding this Act, please contact Tom Mispel-Beyer at (705) 949-1231 ext. 288.
