## **UPDATE: WIND ENERGY PROJECT AND MANAGEMENT PLAN AMENDMENT PROCESS**

Your interest and input on the above noted project has been appreciated. The Ontario Ministry of Natural Resources (MNR) has completed the project evaluation and has made a decision not to proceed with the Magenn Power Air Rotor System (MARS) Wind Energy Project at Sandbanks Provincial Park.

This notice concludes the Category B project evaluation under the Class Environmental Assessment for Provincial Parks and Conservation Reserves (Class EA) for this wind energy project and there will be no further project evaluation or consultation.

A management plan amendment for updating the boundaries of existing park development zones based on more accurate mapping may proceed separately. There are no Class EA requirements for this plan amendment.

**Contact** For further information or to inspect the project file during normal business hours, please contact:
